
Chapter 6: Plan Maintenance and Adoption

This chapter includes a discussion of the plan maintenance process and documentation of the adoption of the plan by the Yukon Hazard Mitigation Citizen Advisory Committee and the Yukon City Council.

6.1 Monitoring, Evaluating, and Updating the Plan

The City of Yukon should ensure that a regular review and update of the Multi-Hazard Mitigation Plan occurs. The YHMCAC should continue to meet on a quarterly basis, or as conditions warrant, to oversee and review updates and revisions to the plan. The Emergency Manager will continue to head the Staff Technical Advisory Committee, which will monitor and oversee the day-to-day implementation of the plan. FEMA requires the plan to be updated at a minimum every five years.

6.2 Public Involvement

The City of Yukon is committed to involving the public directly in updating and maintaining the Multi-Hazard Mitigation Plan.

Electronic copies of the Plan will be distributed to the public libraries, and the plan will be placed on the City of Yukon's Website.

Activities to Consider

1. Public meetings should be held prior to the severe weather season in Oklahoma, probably in the spring. The general citizenry should be invited to attend so they can be updated on the progress made during the year in implementing the plan, stormwater plans and capital improvements, and related public infrastructure capital projects. The meetings can also be used to distribute literature and inform and educate citizens as to actions they can take to mitigate natural hazards, save lives, and prevent property damage. Input from the citizens should be solicited as to how the mitigation process can be more effective.
2. City utility bill supplemental literature and maps
3. Yukon Hazard Mitigation Citizens Advisory Committee should continue to meet on a quarterly basis or as needed.
4. Public Service Announcements

6.3 Incorporating the Multi-Hazard Mitigation Plan

The Yukon Multi-Hazard Mitigation Plan has been adopted by the Yukon Planning Commission as an amendment to the Yukon Comprehensive Plan. The Yukon City Council has adopted the plan to guide City mitigation activities. Appropriate Action Items will be incorporated into the planning process. The recommendations will also be used to guide City actions for the National Flood Insurance Program's (NFIP) Repetitive Loss Plan.

Included on the following pages of this chapter are Resolutions of Adoption of the Yukon Multi-Hazard Mitigation Plan:

1. Yukon Hazard Mitigation Citizen Advisory Committee (YHMCAC)
2. Yukon City Council
